

## **2017 WASB DELEGATE ASSEMBLY**

Date:	August	st 17, 2016		
Subject of Resolution: State Aid			State Aid	& Revenue Limit Authority
Submitted by the School Board of:			oard of:	South Milwaukee
RESOLUTION:		Revenue limits have not been adjusted for inflation in either years of the 2015-17 State Biennial budget. At the same time the State has invested in the equalization aid formula. Going forward, it is recommended that districts be allowed to increase their revenue limits by an amount equal to the equalization aid increase received by the district.		
RATION	NALE:	public s aid does	chools, howe s increase, the ne additional	ted in the equalization aid formula which gives the perception of an investment in ever this is a false perception. If revenue limits are not allowed to increase and state he result is a tax levy decrease. This resolution would give districts an ability to state aid by increasing the revenue limit rather than automatically applying it to tax
